Exterior Wood Doors

Wood door
Decorative - Discreet - High quality

Westeck is a premier manufacturer of windows and doors. All major North American and European windows and doors are locally manufactured and proudly displayed in seven well-appointed showrooms including Kelowna, Victoria, Vancouver, Chilliwack, Nanaimo, Seattle, Washington and our NEW showroom opening in September 2019 in Bellingham, Washington! As each window and door is built to order, our customer have the freedom to design and create a product that is unique and personal. Enjoy our latest line of doors designed to enhance modern and contemporary architecture.

We believe that your front door should be beautiful and inviting.

The following combination of wood and glass turn a front door into a piece of art that invokes admiration.

- Walnut Brown 5804

Door Type: Classic 1 Panel Bottom, Round Top and Lite
-VG FIR
- Glass: Argon, Low-E
- Teak 6105

High Security Stainless Steel Multi-Point locking System

This system utilizes a non-handed anti-slam/mishandling feature that will not allow the mechanism to engage until the door is closed. Being made from corrosion resistant materials, the mechanism is designed to work in the harshest environments. Locking points including shoot tips and deadbolt are engaged by lifting the handle, ensuring convenient and secure operation.

- | | |
|----------------------------------|-------------------------------|
| 1. High Quality Hardware Options | 4. High Performance Glazing |
| 2. Multi point Security | 5. Storm Sill |
| 3. Quality Construction | 6. Vertical Grain Douglas Fir |

Doors are built from thick veneered LVL core stile. LVL core material has greater dimensional stability and strength-to-weight ratios than lumber and OSB components. This virtually eliminates cupping and bowing while keeping the stile and rails uniformly straight, flat and true.
